Chenzook@gmail.com, +98 912 847 48 57

Summary

- Experienced in managing both **small and larger teams**, ranging from iOS-only teams to the Complete Application Stack, **including all tech and product roles**).
 - Experienced in tech profession **since 2006 (10 years)** dedicated to mobile/iOS).
 - Extensive experience in iOS development field. (WORLD-WIDE 2nd in SwiftUI, 21st in Swift and **33rd in iOS** according to StackOverflow public statistics)
 - Diverse hands-on experience in **Tech, UI/UX design, QA, Product/Project management, Multimedia and Animation**, etc. across various industries.
 - Excellent communication skills demonstrated through successful **stakeholder management** and presenting technical concepts to all audiences (**including non-technicals and professionals**).
 - Proven ability to lead and motivate **cross-functional teams**, resulting in high employee engagement and increased productivity.
 - Helped around **20 million developers** solve their problems and impact on **billions of people** (based on StackOverflow analytics report)
 - Honored to contribute on many open-source GitHub projects with **more than 30K stars** in total. (Both as the owner and contributor)
 - Mentored more than **1K of individuals** in the diverse fields through well-known platforms such as MFT, Sharif University TSC, and others.
-

Experienced Industries and Technologies

- **Mobile banking and finance** (GRPC, NFC, Client and Server-side Security) [Blu Bank](#), [Mobillet](#)
 - **Health, healthcare, and wellness** (HL7, Open EMR, PHR) [Orchid Pharmed](#), [Axon](#), [Rassa](#)
 - **Personal Sleep Analysis** (HealthKit, Apple Watch, Widgets, StoreKit, TDD) [Rem](#)
 - **Travel chain and property rental marketplace** (GraphQL, Calendar) [Trippe Ma](#), [Alibaba](#)
 - **Transportation, ride-sharing, and coordination** (UDF, State-Machine) [Hamloo](#), [Hamgam...](#)
 - **Video, Audio and Text live streaming** (Objective-C, VoIP, RTMP, HLS, SocketIO, etc.) [Lahze...](#)
 - **International Global Export and Import** (Full-Stack, Infrastructure, UI\Graphic Design) [S...](#)
 - **Location-based recommendation system** (Map, Geo-fencing, Notification) [Peeyade](#)
 - **Teaching and mentorship** (Objective-C, Swift) [Tehran Institute of Technology](#), [Sharif Universit...](#)
-

Employment

Jul 2023 – Present

Business Development Consultant • [Amara \(Powered by Orchid Pharmed\)](#)

- Marketing consultation for outside of the borders.
- Manage technical tasks and road map of the entire development stack.
- Manage and consult the design process from end to end.
- Design the roadmap of the marketing for the target audience.
- Revise and implement the design system to reduce the development costs.

Jun 2023 – Sep 2023

Technical Development Consultant • [Rem \(Powered by Wellbeine Co.\)](#)

- Reduce the operational work **by 30% in 2 months** by implementing structured and automated workflows using Jira.
- Define and apply performance assessment and accurately evaluate all developers **in 1 month**.
- Implement automated review process that reduced the issue cycle around **30% in 2 weeks** with adding **ZERO additional infrastructure costs**.
- Improve event tracking system to reduce the development cycle **by 40%**.
- Improve UI tasks delivery **18 times**, by implementing a new localization system.
- Improve the code performance **600 times**, by implementing the cutting-edge asynchronous methodology.

Mar 2021 – May 2023

Client-Side Development Team Lead • [Axon](#)

- Managing the client team containing iOS, Android, and QA sub-teams.
- Deliver 3 applications on both android and iOS platforms. (6 in total)
- Define, BD and estimate tasks for all clients, including the PWA as the TPM.
- Mentoring developers, designers, and QA members with diverse grades.
- Design the overall architecture of the system and monitor the development through automated systems like the CI and cultural methodologies such as Agile and Scrum using Jira workflows and git automations.

Mar 2020 – May 2022

Lead iOS Developer • [Alibaba Travels Co.](#)

- Responsible for task management, programming, integration, and delivery.
- Communicate with all verticals as the contact point and define the architecture and business development based on the needs.
- Direct cooperate with the design team to implement HIG friendly experience for users and revise and polish many delivered items.
- Improving the performance of the code, both for User and Developer experience:
 - Reducing the clean build time **from 12 minutes** down **to 15 seconds!**
 - Reducing the clean launch time **from +9 seconds** down **to under 1 second!**
 - Making the flight search responsiveness **instant!** (had to wait **for 20 seconds**)
 - Rewrite the **entire Train feature** alone, which The **Combine** and **SwiftUI**.
 - Implementing continues delivery and reduce release issues **to ZERO**.

Mar 2020 – Dec 2020	Lead iOS Developer • blu Bank <ul style="list-style-type: none"> • Deliver the v1.0 from scratch. • Lead the iOS team alongside hands on the code. • Implement core frameworks such as Security, NFC, Network, DesignKit and, etc. • Automating many routines and making them one-click ready. • Significantly decreasing the production time by implementing developer tools like live previews and modularizing the app.
Feb 2018 – Mar 2020	Mobile Team Lead and Technical Product Manager • Peeyade <ul style="list-style-type: none"> • Promoted from iOS developer to Mobile Team Lead and then the TPM. • Implement the app from scratch after and before the business pivot. • Develop and maintenance of the entire stack from backend to the app to have the app on the AppStore. • Define, document, and support guidelines for cross team communications. • Implement full compatible frameworks. (both backward and forward)
